LOUISVILLE JOURNAL

THE DIRECT TAX .- The tax-payers naturally gin to inquire what proportion each one is to ar of the twenty millions direct iax about to be osed under the recent act of Congress. The ational Intelligencer says that, taking it for granted that hnt little if any of it will be gatherfrom the disloyal States, we may simplify the matter by supposing that it will operate upon only about twenty millions of people. The result, therefore, will be one dollar for each man, woman, and child in the States which stand by the Union. This is a mere triffs when compared wi h the ends to be atlained by the burden. It will fall principally upon those heat able to bear it, and upon articles of luxury. It is true that the direct tax npon tes, sugar, and coffee touches the humbie as well as the wealthy, but the effect will be to induce a curtailment of other expenses matters not essential lo cither health or comfort. The tax on incomes is three per cent, on all the excess of incomes over eight hundred dellars per annum, and five per cent. on the incomes of non-resilents. The President of the United States will pay seven hundred and twenty-six dollars, and each member of the Cabinet two hundred and sixteen dollars. Clerks of the first clas (\$1,200) will pay twelve dollars per annum, and the \$2,200 clerks forty-two dollars.

Two BURGLARS SHOT .- At Hobokus, N. J. on Monday night, two men attempted to rob the store of Jacob Bamber, when the latter shot them was .056 % both-killing one on the spot, and the other died a few hours afterwards. No further particulars were ascerlained.

A COMPANY OF SIX FOOTERS.—Captain Acept, a gentleman who has seen service in Napoleon's ware, arrived in Indianapolis on Monday with a company of six footers that he had recruited for like attorneys and marshale of the several districts. A COMPANY OF SIX FOOTERS .- Captain Kopp,

the United States service.

The CLENES.—The Superintendent of the Census Office states that four thousand three hundred and seven ceases marshals have received their first payment, and that the second psyment has been made to one thousand one hundred; the total amount expertided up to August 3, being \$757,204.

This sum is an increase of \$108,807 over the corresponding period of the previous cansus. Final payments are now made drilly, as fast as the requisitions are honored at the Treasury. The Snapintendent saye:

Some faint idea of the labor attendant upon the settlement of these accounts may be formed from a knowledge of the fact that they Involve an example of more than thirty-five millions separate icus comprising the basis of payment, and this office is restricted by the 21st section of the law to a careful examination of these entries previous to complaining the pay of the assistants. Some accounts are suspended, awarding the amendment of unsatisfactory returns, but the majority have not yet been reached in their regular order for final rettlement. Payments have necessarily been suspended for a short time on several occasions, on account of the want of funds at the Treasury.

At a meeting of the Presbytery of Nashvilla in Approved, August 2, 1861.

THE PRESENTERY OF NASHVELLE SECREES At a meeting of the Presbytery of Nashville in that city on Saturday the following re-olutions

were passed

That this Presbytery, in the exercise of its inberent right, does now withdraw from the jurisdiction of the General A-semily in the U. S. A.

That we are now prepared to unite will all
sister Presbyteries, in the Confestrate States and
elsewhere, like minded with ourselves, it the formation of a General Assembly, on the basis of the
Westminster Confession of Faith.

That ourseminister and on-elder he appointed to
confer with other Pressyteries in reference to the
unsetling of the proposed Assembly; and that this
Irresbytery expresses its preference for the 4th
dry of Docember as the time, and the city of
Augusta, Ga., as the place of belding said As

sembly.

That all monies contributed to foreign missions, In our bounds, be sent to Rev. J. S. Wilson, D.D., for disbursement, until other arrangements are made; and that all contributions, to domestic missions and education, be disbursed by the Commade; and that all contributions, to domestic missions and education, be dishursed by the Com-mittee of l'resbytery appointed for that purpose. THE PRIVATERR YORK .- The Norfolk Herald

publishes the following extract from a letter received in that city from on board the privateer We were at sea seven days, and captured a prize 115 miles eastward of Cape Hatteras. She is worth shout \$283,000. We put a prize crow on board, and in coming in fell in with a man-of war, and had to beach her to keep them from taking her away from us. Financial Revolt in New Orleans.—An exchange says:

The banks of Louisians have defined participating in the Confederate Bank Convention of a defined participating in the Confederate Bank Convention of South Market Convention of the Kidneys, Indigestion, Search Fever, Debug of the rebel government. The hanks of New Orleans possess nearly all the specie in the South and they have no notion of glying it away without a tangible gold pro quo, and this they cannot obtain from Jeff. Davis and his accordance in the F. d. ral armies, and, until that happy time comes, they will hold on to their money. So nothing is remaining in default of coln, but for the Richmond povernment to field the South with Irroducemble, wetthless I ressury netse, and with the them to buy up the rice, ection, sucar, and to bacco which planters cannot send abroad. But this will shall said but little; for the costs is so bleckeded that Davis & Co. will bounable to send any Southern produce on't of the country, and it must remain in score until it is conficured by the loyal soldiers who are ongaged in the work of suppressing rebellion.

instant:

Reports were current throughout the city yesterday of an attack made by the secessionists on lotesi on Saturday evening. It was alleged that the Itome Guards were routed, and several of their number killed; that three bridges were burned, and a quantity of lead captured. Later accounts from passengers direct from that place put an entirely different face on the affair. The secessionists were routed and put to flight by the Itome trained-less than one-lifth of them in number. It eppears that an attack had been threatened, and many of the citizens thought from various indications it would be made during Saturday night, when the inhabitants were in lead. Justiend of this, the rebels, comprising some seventy or eighty mounted men, made a rapid charge before dark down the mein street, sounding the war whosp by way of intimidation. The attack was made between the hours of 6 and 7 P. M., et a time when the rebels safely inferred that the Itome Guerds would be at supper, es their dirill took place nearly an hour later. Consequently there were but fourteen Itome Guards present at their headquarters. The rebels halted in front of this building and ired, wounding six of the Itome Guards. The Guards returned the tire briskly, sending three volleys and wounding several of the rebels, when the later ecompered away in the direction of the depot. The Itome Guards rallied and chased the fagilities, who, It was thought, would attempt to fire the bridge and destrey property, but they were again fired upon and completely routed. WASHINGTON, Aug. 12 General Robert Arderson arrived here it vening. He seems to be in very poor health. posit' messenger who brought the disputered then Fremoot:

Early on Saturday morning then Lyon merched out of Springfield to give the enemy battle it came up to him on Davis's Creek, in Green's Prairie, a few miles southwest of Springfield, where he had taken a strong position on redling ground. At twenty minutes past six o'cleck in the morning Gen. Lyon fired the first gan, when the bat tle immediately began. Some cannonading was kept up for two or three hours, when the fire of Capt. Totten's artillery proving too severe for the enemy, they gradually fell back towerds their encampment on Wilson's Creek. General Lyon's cavalry posted on the enemy's left flank, and Gen. Sigel's artillery on the right, then began a terrific attack, and spread slanghter and dismay in the renks of the enemy, pursuing them to their camp, the shells from Totten's artillery setting fire to their tents and bagange wagons, which were all destroyed. Lonisiana and Mississippi regiments seemed to nave suffered the most in the fight and were almost annibilated.

Some time in the afternoon, as Gen. Lyon was leading on his column, his heres was shot from More of the Garibeldi Affair.

Several weeks ago one of our Consuls shreed expressed the oplinion that Garibaldi would visit this country and command a column of Unico forces in the present crisis, if the Uwernment would indicate that his services were occided. There being no official information on the subject, of course the President could take no official action, but it is understood that he has taken measures to ascertain if Garibaldi would accept a command if othered to him, and if so, has authorized parties to express to him the great gradification it would afford the President to watness his return to the United States and see him at the head of a column of our troops.

Clearing Out the Potomac. Clearing Out the Potomac.

On Saturday list, Lieut. Budd, commanding the steamer Resolute, clevied out one of the rebel depots on the Potomac. It has been known for some time that Herring creek, on the Maryland side, and Machedock creek, opposite on the Virginia side, were the depots for Maryland recruits to the rebel ermy in Virginia. The Resolute, having approached within three hundred yards of the shore of the creek, was fired on with mucketty. A boat was immediately lowered, and Lient.

most in the fight and were almost annihilated.

Some time in the afternoon, as (i.e., Lyon was leading on his column, his herse was shot from nader him. He immediately monnted another, and as he turned round to his men, waving his hat in his hand and cheering them on to victory, he was struck in the small of the heck by a ball rand fell dead to the ground. The command then devolved upon Gen. Sigel.

The pursuit continued until nightfall, when our little army rested for the night in the ancompant of the enemy.

On Sanday morning, Gen. Sigel, fearing the enemy might recover, and attempt to cut his command off from Springield, fell back upon the city, where the Home Guards were stationed.

Reaching Sprinfield and fearing the great numbers of the enemy might induce them to get between him and Rolla, Gen. Sigel concluded to fall lack on Rolta with his provision trains and meet the reinforcements which were on their way to him.

At the latest moment of the departure of the ry. A boat was immediately lowered, and Lient. Budd with twelve men landed. The rebels fled at their approach and were pursued for a mile, Budd with twelve men landed. The rebels fled at their epproach and were pursued for a mile, hut made their escape. Papers containing im-portant information were found. The buildings were destroyed, and ten contrabands, found on the premises, were brought away. After leav-ing the creek, Lieut. Budd learned from the ne-groes that there were three hundred of the rebels concentrated on the Hague, about five miles lack from the river, end that their forty-hoat was about three quarters of a mile verbe creek

From Leavenworth, Kansas.

Leavenworth, August 13.

A man named Harrison escaped from juil at Literty, Mo, where he was confined on the charge of swindling, about two weeks ago, and reached Fort Leavenworth, where he enlisted as a volunteer. On Sunday morning he was delivered to a Missouric flicial, by order of Capt. W. E. Prince, commanding Fort Leavenworth, and escorted by soldiers to the ferry as Weston. The affair causes much talk here, our citizens believing the Captain transcended his enthority in surrendering, an alleged criminal without warrant from the civil euthorities. Capt. Prince has been arrested on a warrant issued by Recorder Melahon, and will have an examination to-morraw.

On the other hand, the expedition to Syria we drawing to a close, so that at the same time the demand for silver ceased and the demand for gold became more active; and this occurred at the very moment when the Bank of France was taking back the silver it had deposited with the Bank of England. Thus the metallic crisis canad by the acarcity of gold coine in the same of the silver of silver money now threaters to recer through the scarcity of gold coine. But on this side the danger is less great, owing to the immense quantity of gold coined of late in all the mints of Europe. Gold will continue in circulation on account of its meall volume and relatively high value. It is a certain fact that the very pe sons who but yesterday complained of the scarcity of silver coin are now greatly annoyed at having to receive a heavy bag of 1,000 francs in elver instead of a convenient roll of Napoleons.
